

DTWA

WEB ADHESIVE

DTWA Web Adhesive spray is a versatile and strong bonding agent. It is solvent based to provide an immediate tack and manufactured from non-chlorinated and non-ozone depleting ingredients. Our dome shaped can features a wide spray nozzle for easy use with gloves and a wide spray of 4 1/2" to reduce application time. DTWA is ideal for use on fiberglass, rubber and cotton liners.

FEATURES:

- Low odor
- Wide pad nozzle for ease of use with gloves
- 4.5 inch wide spray
- Easy clean up with mineral spirits
- Solvent based for immediate tack
- Dome shaped can for easy grip
- High visibility label
