

# USA MADE

## TENNSMITH MODEL HBS48-16, 4' x 16ga STRAIGHT FLOOR MODEL HAND BRAKE

Tennsmith's bench-mounted hand brakes provide an economical means of performing a wide range of sheet metal bending and forming operations. They feature all steel welded construction, are readily adjustable and utilize bronze bearings at pivot points. They're rugged, dependable, USA-made tools that won't break your budget. Model HBS48-16 is a heavy duty bench brake solely for straight bending in up to 16-gauge mild steel. It features a removable apron angle and apron insert that permit 1/4-inch reverse bends in lighter materials.

Apron stop rod and counterweight are standard. Like Tennsmith's larger hand brakes, it features a replaceable nose bar.

HBS48-16 Shown with Optional Floor Stand
