

# FLAGLER CORPORATION

**FLAGLER MODEL 18560 GANG BEADER**  
**5ft x 18ga. BEADER**  
**Forms (5) Beads on a 60" Width Galvanized**

For turning flat sheets into beaded sheets and saving money by forgoing the labor intensive cross braking process, Conklin stocks the Flagler 60" Sheet Bearer, similar to the old and popular Lockformer Bearer except that the Flagler is 18 ga. Width adjustment to the incoming sheet is easy and beads are in a fixed location on 12" centers.

Model 18560 Gang Bearer
