

FLAGLER CORPORATION

FLAGLER Model 20 Gauge Standard
Pittsburgh Machine

Forms a 5/16" Pittsburgh Lock on 20 Gauge Galvanized

The Flagler 20 gauge standard Pittsburgh machine is ideal for small to medium sized shops looking for a freestanding Pittsburgh machine with 20 gauge capacity. The unique Flagler design features 3 separate piece shaft design (roll, shaft ,gear) unlike competitive machine that utilize 1-piece construction which result in higher repair bills. This machine features auxiliary shafts for optional tooling and hardened feed gauges.

Shown with Optional Flanging Attachment

Pittsburgh Lock
