

DYN-O-COAT

EDGE COATING

Dyn-O-Coat combines the flexibility of sealants with the quick drying advantage of aerosol to bring you a highly efficient Edge Coating. Simply spray on to encapsulate rips, tears and cut edges. This prevents fiberglass strands from torn insulation to enter into the airstream. Dyn-O-Coat dries quickly to a matte black finish to match most perma-coat liners on the market today. It is ideal for use on internally lined ductwork, fiberglass duct wrap and rigid fiberglass duct board.

FEATURES:

- Matte black finish
- Convenient, easy application
- Tack-free after curing
- Quick drying
- Encapsulates cut or damaged fibers
- Flexible
- Durable
- CARB compliant
- Dome shaped can for easy grip
