

TRUMPF

Trumpf TruTool N 200 Nibbler

TruTool N 200 is well suited to cut flat- and corrugated sheet metal. With its hollow round punch, The TruTool N 200 is so maneuverable it can rotate on the spot.

N 200 Nibbler

SPECIFICATIONS

N 200

Max. material thickness	
Steel 400 / mm ²	14 ga.
Steel 600 / mm ²	16 ga.
Steel 800 / mm ²	19 ga.
Aluminium 250 / mm ²	14 ga.
Working speed	5 fpm
Start hole diameter	.66"
Smallest radius	.15"
Rated input power	550 W
Strokes at nominal load	1450 RPM
Weight (electrical version: without cable, cordless version: with battery)	4 lbs

TRUMPF

Trumpf TruTool PN 130 Cordless Profile Nibbler

Power-Head-Technology: The profile nibbler is now available as Li-Ion battery. Many details in the gear head are tailored to the voltage of the battery technology and enable the 10,8 volt battery to produce output that is comparable to a 14,4 volt battery. The TruTool PN 130 profile nibbler can cut steel sheets up to .051" thickness and weights only 3 lbs. At the same time, this profile nibbler provides an unbeatable working speed of 98"/min. It offers you enormous curve mobility for processing trapezoidal and profile sheets..
