

# CADDY PYRAMID RL Roller-Based Supports

CADDY PYRAMID RL Roller-Based Supports offer an ideal solution for mechanical piping systems. Long-lasting performance is ensured by providing polymeric rollers for corrosion free rotation. CADDY PYRAMID RL Roller-Based Supports are specially designed to avoid formation of flat spots and seized rollers during expansion and contraction. Superior load distribution and a low abrasion foam interface combine to ensure that the roof membrane is protected despite varying roof surfaces and shifting caused by expansion and contraction.

- Polymeric rollers ensure corrosion free rotation
- Foam bottom offers low abrasion interface for better roof membrane protection
- Compatible with roof surfaces including single ply, bituminous, metal and spray foam
- Ready to use out of the box, saving installation time and labor
- Hot-dip galvanized and UV stabilized for long lasting performance

## CADDY PYRAMID RL Fixed Roller Support

Provides a fixed height roller to support up to 6" schedule 40 (DN150) nominal pipe.

## CADDY PYRAMID RL Adjustable Roller Support

Adjustable height allows elevation changes up to 16" (406 mm) off the roof for up to 6" schedule 40 (DN150) nominal pipe.

## Retainer Strap

Provides additional support to ensure that the pipe stays in-line with the roller.

### WARNING

Pentair products shall be installed and used only as indicated in Pentair's product instruction sheets and training materials. Instruction sheets are available at [erico.pentair.com](http://erico.pentair.com) and from your Pentair customer service representative. Improper installation, misuse, misapplication or other failure to completely follow Pentair's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death and/or void your warranty.
