

Fairmont Tongs

BETTER BENDING - BETTER FORMING - BETTER SEAMING

- Powerful and versatile additions to any tool box -- ideal for HVACR maintenance, roofing installation and repair, or sheet metal handling.
- Hand forged and plated construction ensures durability.
- Depth indicators embossed on jaws allows precise line-up when bending, forming, or seaming.
- Fairmont tongs are available with straight or offset handles.
- Fairmont tongs are available with cushion grip handles, which provide a more comfortable, more secure grip.
