

# WELD TYPE FASTENERS

## GOLD SEAL PINS SELF SEALING PIN

Gold Seal (SSP) pins are considered self sealing pins due to a heat activated gold adhesive on the underside of the washer which secures the pin to the liner facing during the welding process. Gold Seal Pins also feature "dished washers". Do not store at or above 110°F or pins may stick together.

Item#	Bulk#	Code/Bulk Code	Duct Liner Size	Quantity
26197	26297	SSP12/ <b>SSPB12</b>	1/2in	1 TH/ <b>5 TH</b>
