

nVent CADDY Pyramid Rooftop Anchor

nVent CADDY Pyramid Rooftop Anchors provide an ideal method of installing rooftop anchor points for bracing applications. The installation provides a watertight membrane seal to the roof deck. Superior membrane protection compared to other evasive anchoring and ballasting techniques that can void warranties. The anchors come in TPO, PVC and EPDM single ply materials, along with modified asphalt surface.

- Anchors require minimal roof membrane penetration
- System preserves membrane manufacturers' warranty
- Matching membrane material allows for consistent performance and aesthetic
- Installation creates a watertight seal, limiting water intrusion and damage to the structure
