PolarPad[®] Heavy Duty HVAC Pads

PolarPad[®] Heavy Duty/Lightweight HVAC Pads

The POLARPAD is a plastic pad engineered and designed as a base for HVAC equipment. The plastic pad is injection molded from polyethylene, which is durable, strong, and lightweight. The unique design has strong uniform ribbing along the underside. The pad is molded with a texture along the top, and rounded edges on the sides to give a clean concrete look and feel.

The POLARPAD is best used as a base for light, ground supported equipment such as air conditioning condensers, swimming pool filters, and heat pumps. Pads must be fully supported across the bottom, and set on compacted soil, hard surface, or gravel.

Features & Benefits

- Strong, Durable & Impact Resistant
- Engineered & Designed to Resist Cracking, Breaking & Warping
- Supports Over 40 lbs / sq ft
- Reinforced, Uniform Ribbing
- Lightweight, Easy to Handle
- One Person Installation, No Additional Equipment Required
- Resistant to Oils, Refrigerants & Canine Urine
- In Stock & Ready to Ship
- Cost Effective

Easy to Install

Created to replace heavy, expensive, time and labor consuming concrete pads, the POLARPAD can be installed in minutes with no extra equipment required.

Textured surfaces for added traction

Reinforced ribbing provides structural support

Ultra Light / Ultra Strong Concrete Alternative

Multiple Sizes, Profiles*

Model	Size: W x L x H		Weight		Maximum Load		Pallet Qty
	in	cm	lbs	kg	lbs	kg	
POLAR3636-2*	36" x 36" x 2"	92cm x 92cm x 5cm	12.3 lbs	5.6 kg	1540 lbs**	699 kg**	22
POLAR1838-3*	18" x 38" x 3"	46cm x 97cm x 8cm	18.9 lbs	8.6 kg	1250 lbs**	567 kg**	30
POLAR3030-3*	30" x 30" x 3"	76cm x 76cm x 8cm	12.4 lbs	5.6 kg	1300 lbs**	590 kg**	15
POLAR3232-3*	32" x 32" x 3"	81cm x 81cm x 8cm	13.0 lbs	5.9 kg	1440 lbs**	653 kg**	15
POLAR3636-3	36" x 36" x 3"	92cm x 92cm x 8cm	16.1 lbs	7.3 kg	1500 lbs**	680 kg**	15
POLAR3842-3*	38" x 42" x 3"	97cm x 107cm x 8cm	18.2 lbs	8.3 kg	1700 lbs**	771 kg**	15
POLAR4040-3*	40" x 40" x 3"	102cm x 102cm x 8cm	18.0 lbs	8.2 kg	1710 lbs**	776 kg**	15

*Additional Sizes Available Soon.

Disclaimer: **Load should be distributed evenly across pad surface to give maximum allowable load rating.

Exclusions or Limitations: PolarPad equipment pads are designed and manufactured to be used as bases or light, ground supported equipment such as air conditioning condensers, swimming pool filters and heat pumps. Use of PolarPad pads for purposes other than those listed above or improper installation of PolarPad pads may result in pad failure. DuraPlas disclaims any liability due to such misuses or improper installation.

Providing Innovative Plastic Solutions Across Multiple Industries

THERE'S A LOT TO A NAME...

A lot can happen in 50 years. When Vic Sahm developed his first plastic feed wheel in 1970, DuraPlas was born. He may never have dreamed that over 50 years later his company would be the global provider of durable plastic products that it is today.

Some of you may know us as Southwest Agri-Plastics, as an innovator in the poultry, swine, horticulture and livestock feed industries. Others may recognize the name Maxi-Lift, for our maximum duty elevator buckets, belting and hardware that move the world's agricultural and industrial products to market. Still others know us for our petroleum pipeline stands, cargo accessories or warehouse rack protectors. Whether it's agriculture, industrial, energy or global logistics, wherever extreme duty plastic products are found, you will find the name DuraPlas.

As we move forward into the next 50 years of innovation, the time has come to bring all of the brands you know and trust under one name, the original name - DuraPlas. Our promise to you is that nothing has changed. From our elevator buckets to our dog kennel flooring, our quality and commitment remain the same. Our family looks forward to serving you in the years ahead.
