

MAGHEX™ WRENCH

PATENT # 11,673,236

The MagHex Wrench is a fast and convenient way to add a threaded nut, bolt, or screw to threaded rod. The design fits comfortably in your hand, even wearing a glove.

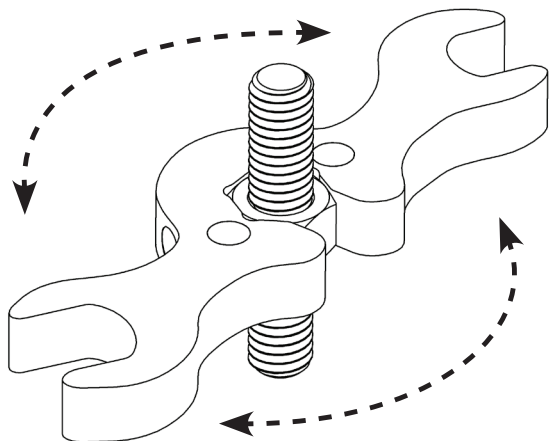

There are two 9/16" sections, and one 7/16" section.

Features:

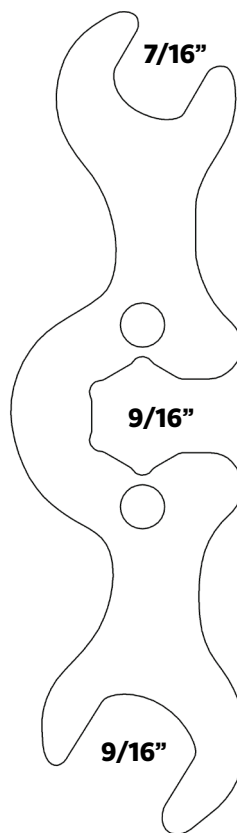

- Spins for quick action
- 5 axially charged magnets
 - 3 magnets for secure contact
 - 2 magnets on face for easy storage

Utilizing
MAGWRENCH™
Technology
