

Spider (Metal Deck Insert)

Spider (Wood Form)

Manufacturer's Recommendations

LOADS – Always use product within its stated Safe Working Load (SWL).

LIFTING & MOVEMENT – Do not use for lifting, such as in a crane or pulley situation, or for hanging services exhibiting movement or dynamic behavior. Designed for hanging statically positioned services only.

INSTALLATION: Do not walk or stand on the Grippler product installation.

PAINTING – Do not paint the Trapeze fastener. Ensure that the fastener is in its final position prior to applying any paint to the cable assembly. Do not move fastener after painting

CABLE – Always use Grippler supplied and specified cable. Never use on coated cable or other cable. Trim any damaged filaments with Grippler wire cutters before use.

ENVIRONMENT – Grippler products, including Stainless Steel, are NOT suitable for use in chlorinated / swimming pool environments. Use standard Grippler hangers in **DRY LOCATIONS ONLY**. Stainless Steel Grippler hangers are **SUITABLE FOR DAMP LOCATIONS**.

LUBRICATION – Do not apply oil or any other lubricant to the Grippler fastener or any other part of the cable assembly.

HANGING AT AN ANGLE TO VERTICAL – Ensure that the load calculation considers the effect of 'side load'. For example, at an angle of 60° to vertical, the SWL is reduced by 50%. (See published technical information on website or in Product Guide.)

Failure to comply with these recommendations may result in product malfunction and possible damage to property or person and will invalidate the Grippler warranty. Grippler products are warranted to conform to the manufacturer's published specifications at the time of shipment and to be free from defects in materials and workmanship. No other warranty, whether express or implied, including any warranty of merchantability or fitness for purpose, shall exist in connection with the sale or use of any Grippler product.
